

INPATIENT ALLIED HEALTH AND COMMUNITY SERVICES

Inpatient Referrals

- > Inpatient referrals will be managed in the EMR.
- > Referrals will be “ordered” (requested) in the EMR.
- > All units with blanket referrals will have these automatically ordered when a patient is admitted.

- > Your referrals will be displayed on the Multi-Patient Task List.
- > You can “filter” your disciplines’ referrals to view by unit, ward or site.
- > Everyone can customise their own Multi-Patient Task List.
