

# ELECTRONIC MEDICAL RECORD

## Best Care

1

### WHERE DO I FIND ALERTS?

The EMR is the source of truth for patient Alerts

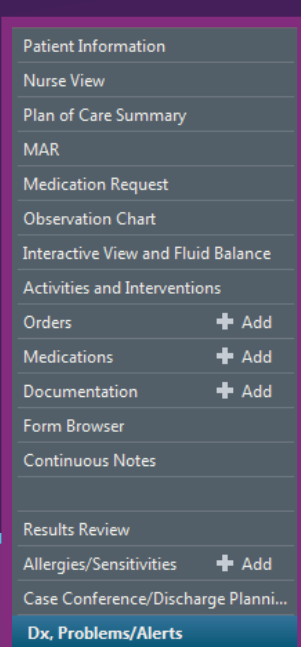

2

### WHERE DO I VIEW ALERTS?

If Alerts are marked 'Recorded' on the blue Banner Bar

Select Dx. Problems/Alerts in Table Of Contents

3

### HOW DO I ADD AN ALERT?

In Dx. Problems/Alerts click on **+ Add** in Problems section  
Click through appropriate Folders for your Alert

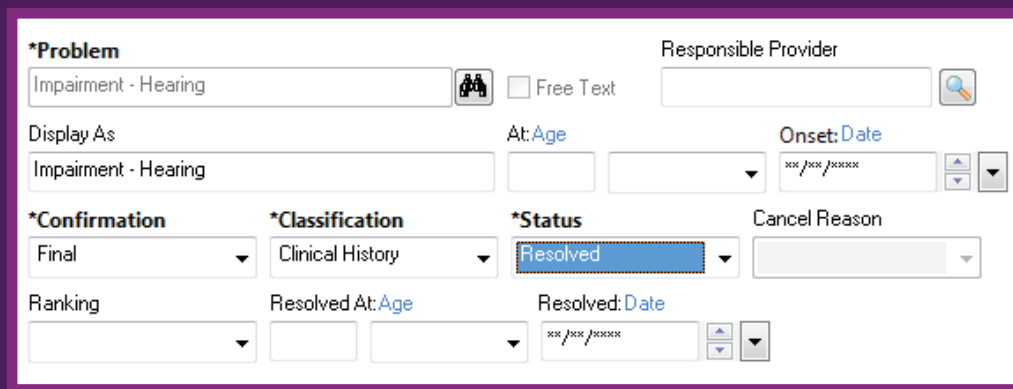

Double click on the Alert

Then click **OK**

4

### HOW DO I REMOVE ALERTS?

In Dx. Problems/Alerts double click on the Alert and update the Status to Resolved.

Then click **OK**

Infectious alerts can be initiated by everyone but only the infection prevention team is allowed to remove these.
