

EMR Quick Reference Guide

Clinical Care – Update Height & Weight

1. Click on **Adhoc** from the Navigation Tool Bar
2. Select **Height, Weight & VTE Assessment** then chart
3. Fill in any relevant information for your patient in the chart

4. Tick on the **green tick** in the top left corner as shown to sign and save the captured details

5. **Weight** can also be updated in **Interactive View** under **Adult Quick View** then **Measurements**

If the dynamic group is activated, it will automatically calculate **Weight Change** and **Body Mass Index**

Measurements		<input checked="" type="checkbox"/>
Weight Measured	kg 60	
Weight Estimated	kg	
Percent Weight Loss/Gain	% -40	
Ideal Body Weight	kg	
Height/Length Measured	cm 175	
Height/Length Estimated	cm	
Body Mass Index Measured	kg/m ² 19.59	

Weight: 120kg 03/06/2019 15:09

6. Once updated the weight will display on the **banner bar** as well as the **Inpatient Summary**

Measurements and Weights (4)			
Selected visit			
	Latest within	Previous within	Change
