

EMR Quick Reference Guide

Cross Encounter File Review - Reviewing Orders/IPOCs (Goals and Interventions)

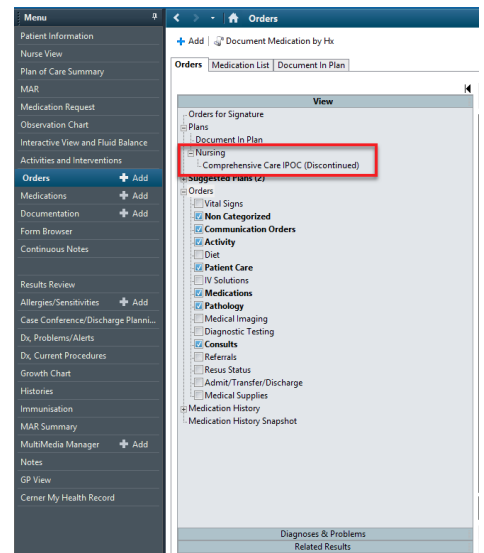

1. Type in MRN number in Search
Select **Correct Encounter** you wish to review

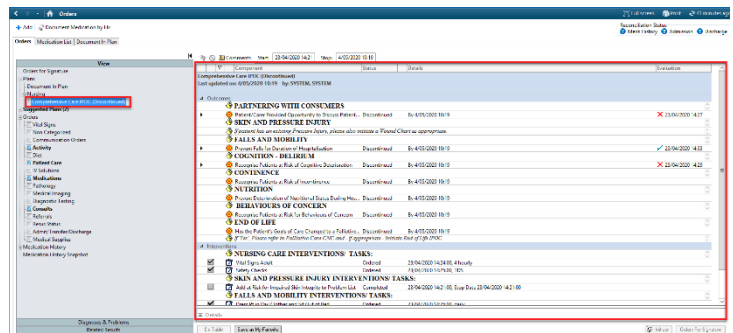

2. Patient record will open for that encounter
Go to **Order** page from Table of Contents (TOC)
Change the **Displayed** filter to show **All Orders (All Statuses)**

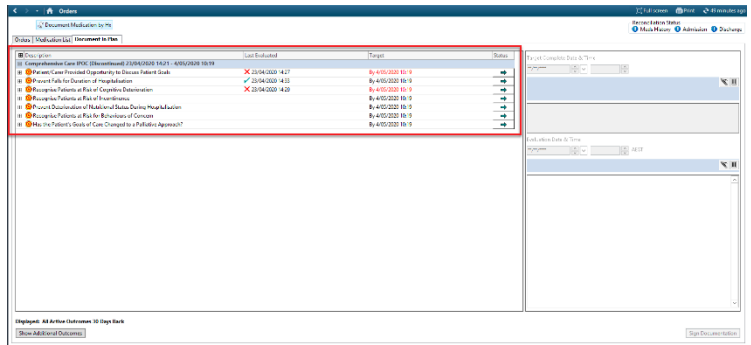

3. If any IPOCs initiated they will appear under **Nursing**

4. Select the IPOC you wish to review and what goals and interventions were selected for the patient will appear on the right of screen

- If you want to review documentation against the IPOC go to **Document in Plan** and the IPOCs for this patient will appear.

- You can review the frequency of the documentation by clicking on the **+ sign** next to the goal
