6. If you realise that you have accidentally marked the chart as reviewed and you wish to undo the review eg. wrong patient, right click on the completed order and click **'Unchart'**

7. A screen will appear, document your reason and click on the **green tick** on the right upper corner. This will reset and delete the completed task

## How to view who has had a chart review completed and signed off on your ward

1. Go to **Multi-Patient Task List** and click on the **Pharmacy Review** tab

2. Check if your viewing status of pharmacy consults have been set to 'All'

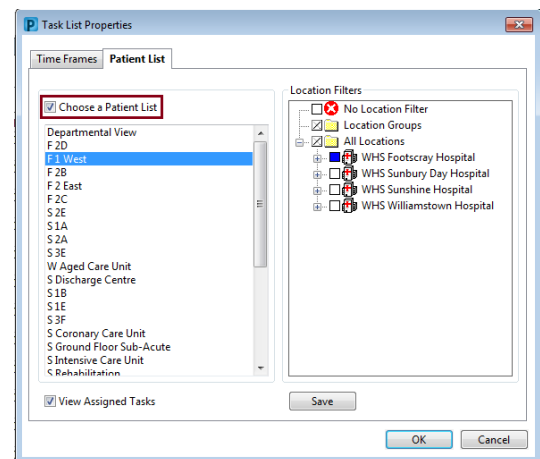

- Go to **Options** at the top of the screen
- Click on **Task Display**
- Ensure "All" is selected under Status
- Click **Save** then **Ok**.
- **Refresh** your page

3. Right click on **Assigned Task** and click on '**Customize Patient View**'

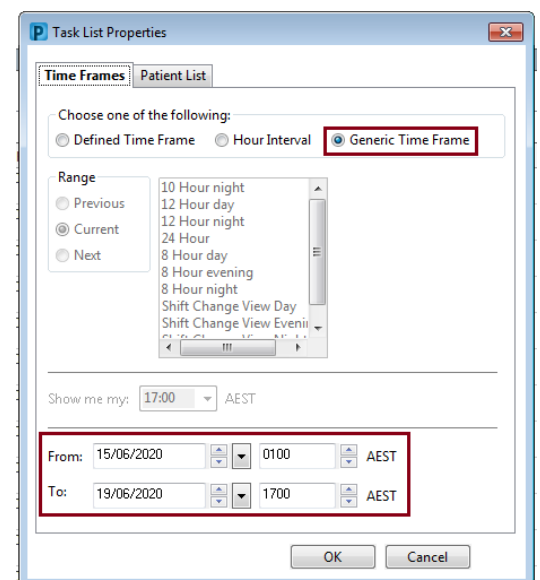

4. Check that '**Choose a Patient List**' is ticked and click on the ward you want to view

5. On the same screen click on the '**Time Frames**' tab and enter in the dates you wish to view and click '**Ok**'.

**Note:** 'To' date should be 'today' and 'From' date should be set to cover a period that is appropriate for your ward eg: Acute wards 1A/1W back date at least 2 weeks

6. A list of the patients on your ward will appear

 A green tick indicates that this patient has had a chart review completed and signed.  
*Note: multiple tasks may appear for the same patient. These are auto-generated by the system and for the purpose of viewing chart reviews ignore duplication*

**Last Done Date and Time**  
 As the title suggests, this displays the date and time of **the most recent review** that has been completed and signed

 Patients who do not have **ANY** ticks next to their name indicates that **NO** chart review has been completed and signed

7. If you wish to view how many times or know when previous reviews have been done:

- a. Right click on the patient, and click on **Order Info**

- b. Open the **Results Tab**. This will display all reviews that have been completed and signed
