

## EMR Quick Reference Guide

### ED - Nurse Initiated Radiology Order

**Note: X-Rays can be initiated by ED Nurses who have successfully completed their Nurse Initiated Radiology Orders competency package**

1. Patient needs to be triaged and clerked in **EDIS** for an encounter to be created in the **EMR**  
An ED encounter in the EMR is prefixed with **EMG**

Site	Visit Type	Unit	Room	Bed	Clinical Unit	Admit Date	Disch Date	Visit No
Footscray	Emergency	F EMERGENCY				5/09/2018 8:53 AM		EMG1439006
Williamstown	Emergency	W EMERGENCY				4/09/2018 2:31 PM	4/09/2018 2:40 PM	EMG1439005
Sunshine	Emergency	S EMERGENCY				4/09/2018 2:24 PM	4/09/2018 2:29 PM	EMG1439004
Footscray	Emergency	F EMERGENCY				4/09/2018 12:17 PM	4/09/2018 2:18 PM	EMG1439003

2. Select your patient from the EMR and go to **Orders**, select **Add** and search for the Radiology orders you require. Note: you can select multiple orders at once

3. All fields in yellow are mandatory

Select **Protocol w/ No Co-sign** and the consultant in charge of the shift. A doctors name is required in Cerner for their provider number.

4. The order will be sent electronically to Radiology . If not displaying correctly don't forget to refresh your screen
