

## EMR Quick Reference Guide

### Infusions – Commencing a Truly Continuous Infusion – Nursing/Midwifery

All infusions must be commenced via the **Medication Administration Wizard (MAW)**.

1. Check the box next to the infusion
2. Click the yellow highlighted field under **Result**, the **MAW Administration Window** will open.
3. Review medication order in **Banner**
4. Review the Bag number
5. Enter the **Site of Administration**
6. Enter in Second Nurse details
7. Click **OK**. Second Nurse/Midwife enters password, sign off Medication Administration window.
8. Click refresh and check the “Begin Bag” & date and time details are correct on the MAR
