

## EMR Quick Reference Guide

### Administration – Refer to iPM as Source-of-Truth for ID

#### 1. Background

This relates to the display of specific patient identification (ID) types (Alias tab iPM) in the Other Identifiers window in Power Chart - Patient Information - Demographics tab.

The following ID types display in the EMR Identifiers window:

- URN
- Medicare Details
- Dept of Veteran's Affair
- Health Care Card
- Pension Concession Card
- Other Government Pension or Benefit
- Safety Net Concession Number
- Safety Net Entitlement Number

Type	ALIAS	ALIAS POOL DIS
URN	1591492	WHS UR Numb
Medicare Num...	39356356011	Medicare No
State Healthcar...	301111111A	Healthcare Card
Safety Net Entit...	SN111111111	Safety Net Entit

a) When the below identifiers are **edited** in iPM they continue to display in EMR as well as the updated alias.

- Medicare Details (only for changes to a suffix when a saved Medicare no. exists)
- Health Care Card
- Pension Concession Card
- Safety Net Concession Number

Type	ALIAS	ALIAS POOL
URN	1591492	WHS UR Num
Medicare Num...	39356356011	Medicare No
State Healthcar...	301222222A	Healthcare C
State Healthcar...	301111111A	Healthcare C

b) When the below identifiers are **end-dated** in iPM they continue to display in EMR.

- Medicare Number
- Dept of Veteran's Affairs
- Health Care Card
- Pension Concession Card
- Other Government Pension or Benefit
- Safety Net Concession Number
- Safety Net Entitlement Number

Type	ALIAS	ALIAS POOL
State Healthcar...	301222222A	Healthcare C
State Healthcar...	301111111A	Healthcare C
Military ID	VX123456	DVA GOLD
Safety Net Entit...	SN111111111	Safety Net E

#### 2. Issue

- Incorrect patient identifiers display in EMR.
- Incorrect concessional patient Identifier displays on Discharge Prescription.

#### 3. Workaround

- Refer to iPM as source-of-truth to view ID as per current practice.
