

Access and Set Up – Adding Navigator Bands to an Admission mPage

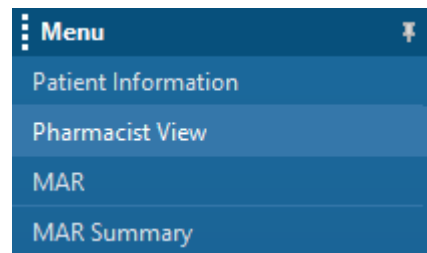

This Quick Reference Guide will explain how to:

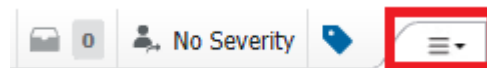

Add Navigator Bands to Admission and Progress mPages.

Adding Navigator Bands to an Admission or Progress mPage

1. Select the corresponding **Medical Officer View**, **Nursing View** or **Pharmacist View** (or other discipline) in the Table of Contents.

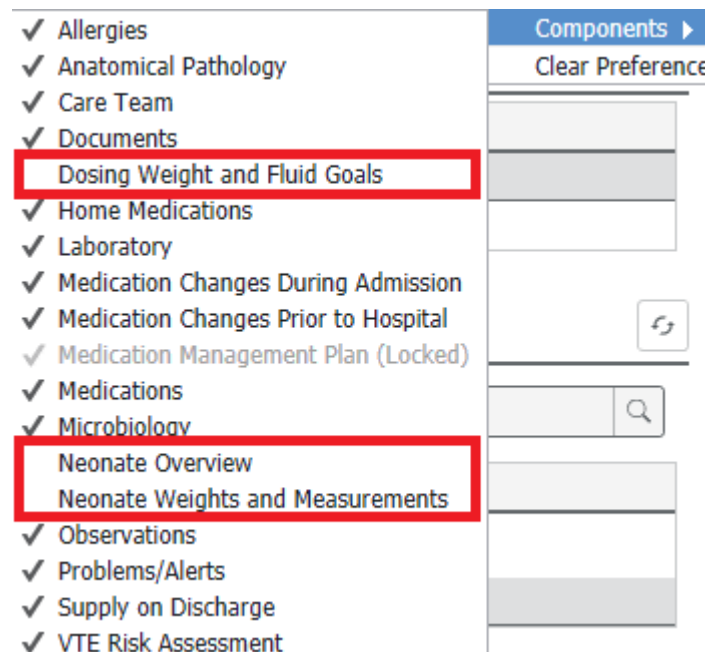

2. Select the **Page Menu** (hamburger) icon in the **Admission** mPage.

3. Select **Components** from the drop down menu.

4. Select the required **Components** from the list. Components that have not yet been selected to display on the mPage will not display a tick next to the name.

5. Upon selection, a tick will appear next to each **Component** and the **Admission** mPage will automatically refresh.

The selected **Components** will now display in the **Components** banner and **Admission** mPage.

6. Repeat this process for the **Progress** mPage, if required.
