Access and Set Up - Adding the Digital Health Site to your Computer and Phone

This Quick Reference Guide will explain how to:

Add the digital health site to your desktop/ laptop/ wow/ iPhone/ Samsung phone.

1. How to add the Digital Health site to your desktop/laptop/WOW

LiveEMR
Electronic Medical Record
https://liveemr.wh.org.au/

Western Health

To support easy access to all you need to know on the Go Live of EMR, we have established a comprehensive **information site** called LiveEMR —*separate from the EMR clinical program.*

It provides a valuable quick reference and is a great asset during this period, containing important alerts, patient safety tips, quick reference guides - and photos of the daily EMR action!

Everyone who will be using the EMR should create a shortcut to access the site easily.

1. Right click on your desktop and scroll down to New

2. Then click on Shortcut

3. You will see this screen   >>>>>>>>>>>>>>>>>>>>>>>

4. Open the LiveEMR site by clicking through from the intranet or by typing the FULL address into your browser address bar:

https://liveemr.wh.org.au

https://liveemr.wh.org.au/

5. Copy the URL from the address bar

6. Paste the URL into the screen on your desktop.

7. Click Next

8. Rename the shortcut to LiveEMR Info

9. Click Finish to create the Shortcut

10. The icon will now appear on your desktop/laptop screen and you can click on it at any time

2. How to add the Live EMR information site to your iPhone

1. Type https://liveemr.wh.org.au into the address bar on your phone's browser.

2. The site will come up. Click on the button in the middle of the base of the screen.

3. Click on Add to Home Screen

4. Click on Add

5. The icon will appear on your home screen – YOU'RE GOOD TO GO!
