Administration - Refer to iPM as Source of Truth for ID No

Digital Health
Quick Reference Guide

**This Quick Reference Guide will explain how to:**

Refer to iPM as source of truth for ID No.

---

1. Background

This relates to the display of specific patient identification (ID) types (Alias tab iPM) in the Other Identifiers window in Power Chart - Patient Information - Demographics tab.

The following ID types display in the EMR Identifiers window:

- URN
- Medicare Details
- Dept of Veteran's Affair
- Health Care Card
- Pension Concession Card
- Other Government Pension or Benefit
- Safety Net Concession Number
- Safety Net Entitlement Number

a) When the below identifiers are **edited** in iPM they continue to display in EMR as well as the updated alias.

- Medicare Details (only for changes to a suffix when a saved Medicare no. exists)
- Health Care Card
- Pension Concession Card
- Safety Net Concession Number

b) When the below identifiers are **end-dated** in iPM they continue to display in EMR.

- Medicare Number
- Dept of Veteran's Affairs
- Health Care Card
- Pension Concession Card
- Other Government Pension or Benefit
- Safety Net Concession Number
- Safety Net Entitlement Number

2. Issue

- Incorrect patient identifiers display in EMR.
- Incorrect concessional patient Identifier displays on Discharge Prescription.

3. Workaround

Refer to iPM as source-of-truth to view ID as per current practice
