

Allergies/Sensitivities – View, Review, Modify and Cancel

This Quick Reference Guide will explain how to:

View, mark as reviewed, modify or cancel an allergy in EMR

View

Click on **Allergies/Sensitivities** under the Table of Contents (TOC) to view the recorded allergy(s).

Allergies/Sensitivities + Add

Review

1. Verbally confirm any documented allergies (or no known allergies) with the patient. Verify by clicking **Mark All as Reviewed**.
2. Refresh to update the Reviewed date and time column.

Substance	Category	Reactions	Seve...	I..	Type	C.	Reaction S...	Updated By	Source	Reviewed
Bee Sting	Drug	Rash	Unkn...		Allergy		Active	05/04/202...		05/04/202...
Eggs	Food	Rash of m...	Med...		Allergy		Active	31/03/202...		31/03/202...
metocloprami...	Drug	Abdomin...	Mild		Allergy		Active	05/04/202...		05/04/202...

Important - Review prior to administration

Review and document reviewing your patient's medications before administering any medication.

Modify

1. **Right click** on the allergy and select **Modify**
2. Click **OK** once the changes have been made
