Documentation – Allied Health – Diagnosis, Problems & Alerts

Digital Health
CONNECTING BEST CARE

**Digital Health
Quick Reference Guide**

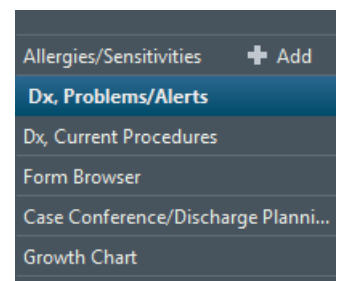

This Quick Reference Guide will explain how to:

Allied Health Clinicians can add diagnoses within their scope of practice. Any diagnosis made by an Allied Health Clinician that is documented in clinical notes should also be added as a diagnosis in the patient record
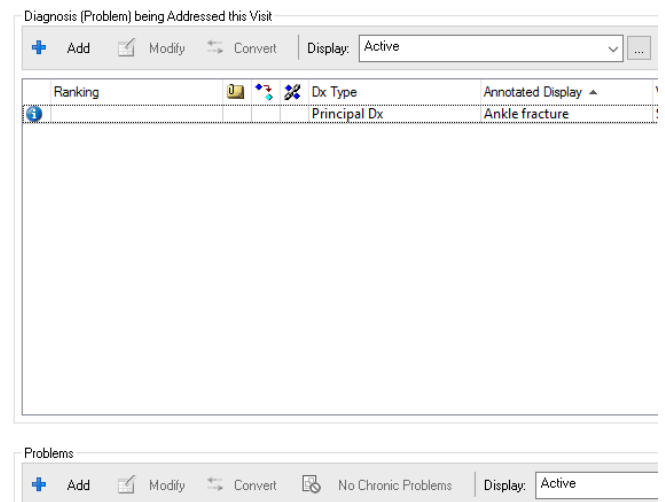

Definitions:

Diagnosis –the problem/s being addressed during the current admission, also known as a list of current issues

Problems - include care alerts and past medical history, including conditions that are still active and those that have been resolved
---

1. Navigate to **Dx Problems/Alert**

The screen is split into **Diagnosis** and **Problems**

2. To add a diagnosis click **+Add**

3. Type the diagnosis into the yellow field and click the **binoculars** to see a list of options with SNOMED codes attached
