FirstNet – Clerical - Died in ED

Icon

D

Digital Health Quick Reference Guide

Discharge a patient who died in ED.

Discharge option

1. When a patient died in ED, the doctor will place a Died in ED order. In **Tracking Board**, the lcon column will display a "D".

Important – Clerks will need to decease the patient in iPM before completing FirstNet Discharge

2. Once deceased in iPM, right-click on the patient's name in **Tracking Board** and select **Discharge Process**

3. From the Depart Process window, select the pencil icon next to ED
