FirstNet - Deceased Patient Workflow

Digital Health Quick Reference Guide

This Quick Reference Guide will explain how to:

Complete the medical component of the deceased patient documentation. Complete the nursing component of the deceased patient documentation.

Triggering the workflows is completed by ordering the Patient Died in ED disposition in LaunchPoint from the Context menu (right-click) or in the patient file via ED Quick Orders page. This can be completed by anyone.

	ED Re-Triage		Disposition Orders	-
E	Attach Prearrival			
· F	ED Ready for Discharge		ED Ready for Discharge	
IRK	Admit ED RAZ Commenced		ED Bed Request to SSU/BAU/HUB	
r F			ED Bed Request to Wards	
ootscray S	Patient Died in ED	_ [[Patient Died in ED	

Medical Workflow

1. Ordering the Patient Died in ED disposition changes the patient's status and drops a task alert into the Physician Task column.

2. Click on the task alert to open the tasks and click on "Document" to open the ED Deceased Patient Powerform.

Digital Health

3. Fill in the Powerform and click on the green tick to submit the form.
