Quick Reference Guide

This Quick Reference Guide will explain how to:

Access, view and update the ED Diet Tracking Board. This applies to any patient in the Emergency Department (ED).

1. Log into **FirstNet**. Navigate to '**Tracking Board**' via the action toolbar

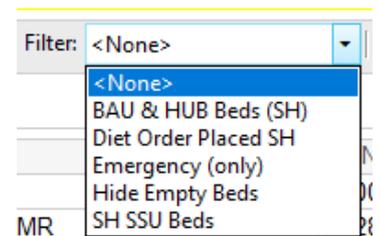

2. Ensure you have the correct site location and '**ED Diet**' tracking board selected

SH ED Diet

FH ED Diet

WTN ED Diet

3. Select the required **filter** to refine the Tracking Board list

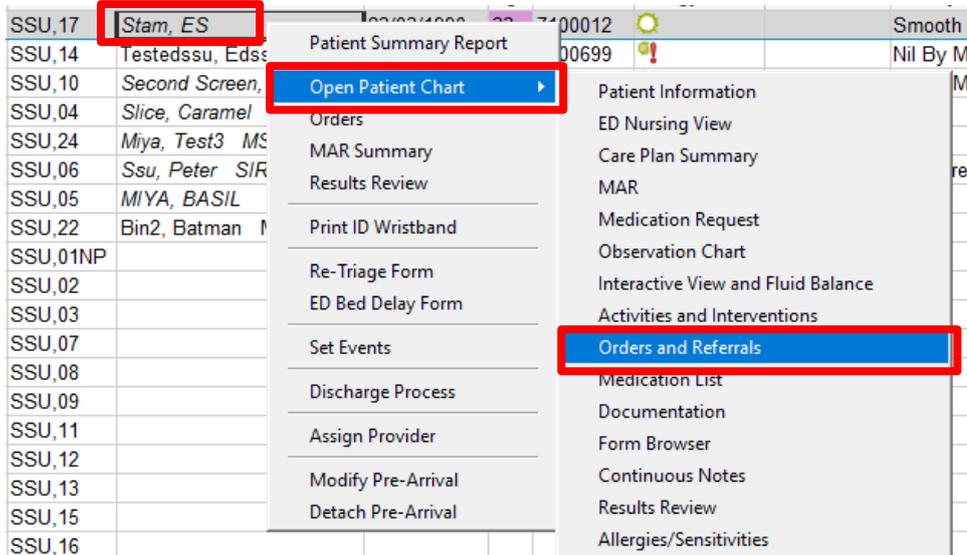

4. When the patient has a Diet Order placed in FirstNet the diet modifiers will display on the tracking board

Dietary Modifiers 1	Dietary Modifiers 2
Nil By Mouth*	
Smooth Puree*	Caffeine Free*
Beef Free*	Chilli Free*
Full*	

5. Clicking on the heading column will sort the list accordingly. For example, clicking on 'Dietary Modifiers 1' heading will group the diet codes. This will make it easier to see the diet status of the patient and if the patient is Nil by Mouth.

6. Right clicking on the patient name opens the context menu. From here you can open the patient chart to update or place a Diet Order as required.

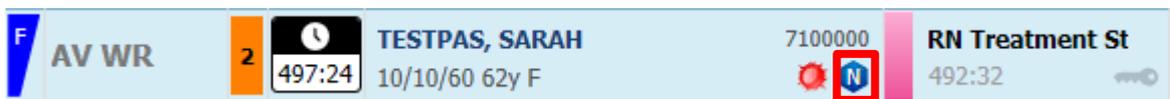

7. Select to search for a new Diet Order.

8. Up to 6 Diet modifiers can be selected. For example: Nil By Mouth'

9. Back on LaunchPoint, if a 'Nil By Mouth' Diet order was placed for the patient the 'N' Nil By Mouth symbol will display on LaunchPoint.

Handy Hint

- Ensure you have the correct tracking board selected for the location you are working.
 - Yellow TABS = Sunshine
 - Blue TABS = Footscray
 - Green TABS = Williamstown
- Ensure you check the filter selected, this will refine the list of patients displayed
- Every new Diet Order placed for the patient will update the ED Diet Tracing Board accordingly
