Quick Reference Guide

This Quick Reference Guide will explain how to:

Order and document administration of Nitrous Oxide in Emergency Department (ED) Paediatric space.

Ordering Nitrous Oxide

1. From **Orders and Referrals** page, select **+Add**
2. Search for **Nitrous Oxide** from the Search field
3. Select the desired order, complete all required field (if any) and click **Sign**
4. Check the Medication Administration Record (MAR)

Enter name to create sequence:

Search: Advanced Options

Up Home Favorites Folders Copy Folder:

nitrous oxide
nitrous oxide
30 - 70 %, Inhalation, Gas, See Instructions, ***Check gas carefully*** See iView for documentatio...

Documenting Nitrous Oxide Administration

Important – All Nitrous Oxide administration is to be documented from Interactive View. Do not action administration from the Medication Administration Wizard.

1. Review Nitrous Oxide order from the MAR and note that documentation is completed from Interactive View (iView)
2. Navigate to **Interactive View and Fluid Balance** page

Unscheduled

nitrous oxide
30 - 70% Inhalation, Gas, See Instructions, ***Check gas carefully***
See iView for documentation. Titrate to patient response. Mix with
oxygen that does not contain nitrous oxide 11:00:00
nitrous oxide

3. Select **ED Paeds Quick View** band and the **Nitrous Oxide** section

ED Paeds Quick View

- Ambulance Handover
- ED Primary Survey
- ED Paeds Risk Screening
- EENT
- Valuables and Belongings
- Bedside Testing
- Titratable Infusions
- Measurements
- Nitrous Oxide
