Anaesthesia - Difficult Airway Documentation

Digital Health CONNECTING BEST CARE

Digital Health Quick Reference Guide

This Quick Reference Guide will explain how to:

Document airway management, letter and alert for patients after management of a difficult airway

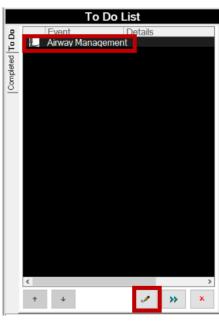

Definitions:

SAA - Surginet Anaesthesia

Documentation as part of anaesthesia record

Using SAA airway management action:

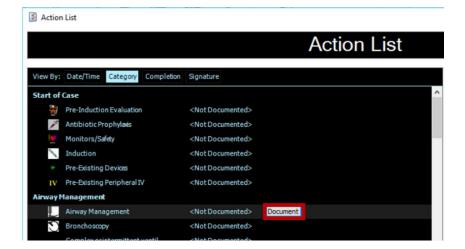

1. Select the "Airway Management" action from To-Do List and click the edit icon

If the Airway Management action does not appear on the To-Do List, select the "Actions" button on the tool bar

Select "Document" on the "Airway Management" action
