

# Tracking Board – Updating Patient Status

## This Quick Reference Guide will explain how to:

Effectively use the Tracking Boards in the Cerner Millennium system

### Definitions:

**Tracking Board** – Enables staff to see all of the patients in every area of care and understand whose providing care, what care is required and what stage of their visit a patient is at

## Updating Patient Status

1. As a care provider, you can update the patient's status directly from the tracking board
2. Click on patient's entry and select the appropriate option to reflect their current stage of care

The screenshot displays the 'Tracking Board' interface in PowerChart Organizer. The interface includes a menu bar, a toolbar, and a main data table. The table columns include Bed, Pro Ale Name, URN, Status, Team, Pathway, G/P, EGA, Membranes, GBS, Serol, PPH, Risk, Dil, Eff, Sta, Liquor, Epidural, To Do, Activities, Communication, ABO/Rh, Path Comment, and Plan. A dropdown menu is open for patient R02.B02, showing options: '<None>', 'FDIU', 'Green - Labour', 'HDU - AN', 'HDU - PN', 'Postnatal', 'Red - Labour', 'Theatre', and 'TOP'. The patient's current status is 'NVB'.
