Phase 2.1  
Go-Live

# NURSING & MIDWIFERY TOP 10

## Admit and Manage mPages

A new view in the EMR to better support nurses & midwives with access to information

Nursing mPages available now

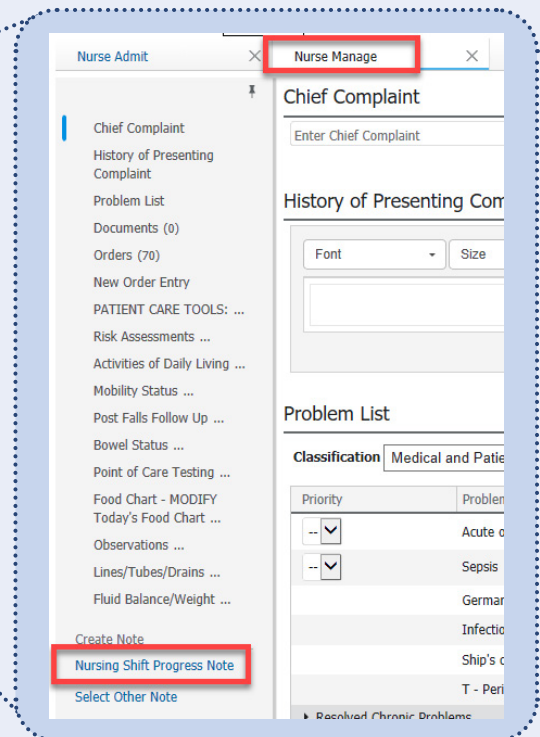

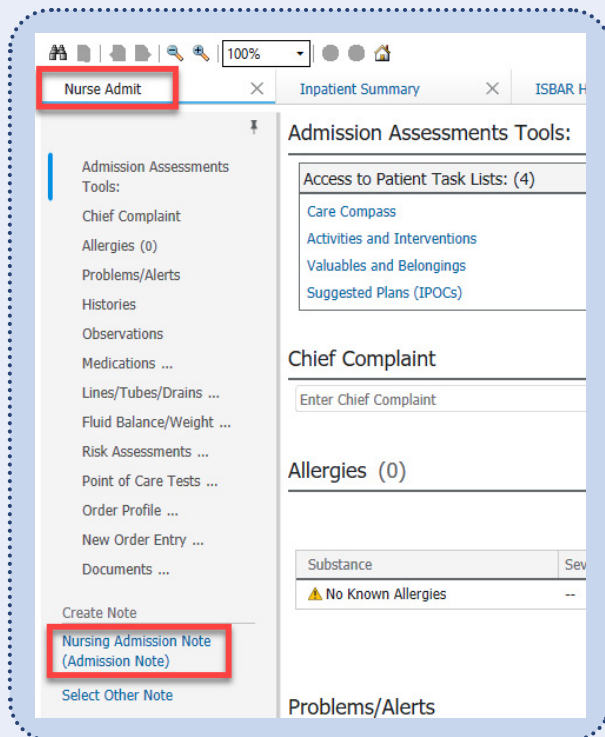

Midwifery mPages available with the July EMR Phase 2.1 Go-Live

### What is an mPage?

- An **mPage** brings together data from throughout the **EMR** to provide one comprehensive **real-time view** of patient information

### Nursing available to use now!

- Nurse **Admit** workflow mPage
- Nurse **Manage** workflow mPage
- Dynamic Documentation Note Type for Nursing - Admission & Shift Note Type

### Benefits

- Improved information sharing
- Streamlined workflows to better support nursing staff, including early career nurses
  - Better visibility of key patient information
  - Improved clinical handover at transitions of care
