

# NURSING & MIDWIFERY TOP 10

## Point of Care Specimen Collection

### There are two ways to complete Specimen Collection in PowerChart

#### 1. Via the Activities page on Care Compass:

To open the Specimen Collection window

- **Right click** on the **Specimen Task** and select **Document**
- OR
- **Click** on the **Document** button at the bottom right of the Activities Page window

#### 2. From the Navigator Toolbar:

To open the Specimen Collection window

- **Click** on the **Specimen Collection** button

- Collect the equipment required including a specimen label printer
- Scan the patient's **EMR wristband** by using the scanner attached to the WoW
- Ask the patient to state their **FULL name** and **DOB** and check **UR number** to ensure **Positive Patient Identification (PPID)**

\*If unable to scan, click the **Unable to scan barcode?** link located at the bottom left of the Collection Details window

#### SCAN PATIENT

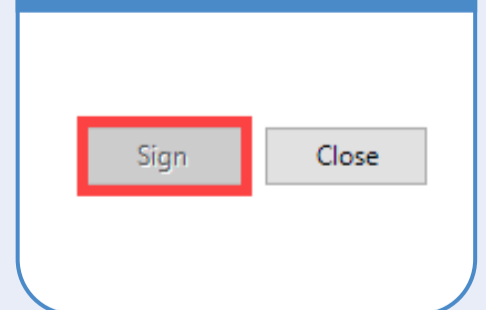

#### SCAN PRINTER

#### SCAN LABEL

#### SIGN ORDER

**Note:** if you send the specimen without clicking **SIGN** to complete the workflow, the specimen may be rejected/discarded
