

EMR PHASE 2.1 ALLIED HEALTH KEY MESSAGES

Message Centre

USE MESSAGE CENTRE TO:

- Receive messages relating to patient phone enquiries or scheduling enquiries sent by clinic staff
- Communicate patient related information/tasks with other clinicians or administrative staff
- Document the content or outcome of phone calls to/from patients/carers

- These messages will also appear in the patient file, you can opt out of publishing them as appropriate
- Set reminders to review results or to follow-up patient specific tasks
- Add yourself to message centre groups that will relate to any outpatient or community clinics/areas you work in, to receive messages relating to these
- Messages for current inpatient workflows will continue unchanged
