Quick Reference Guide

**This Quick Reference Guide will explain how to:**

Place an order for Nurse and Midwife initiated medications
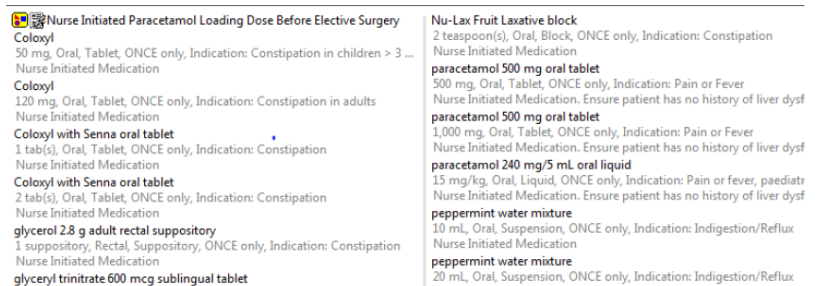

Definitions:

MAR – Medication Administration Record

## Medications - Nurse and Midwife Initiated Orders

1. Go to **Orders** and click **+Add**

2. The **Orders window** display with the **Nurse/Midwife Initiated Medications** folder first on the left column

3. **Click once** on the folder to open. A list of medications a nurse/midwife can order will display.

4. Select desired medication to be prescribed Eg: Coloxyl 120mg Oral. An **Ordering Physician Window** will display. **Add name of Consultant** (see Banner Bar) and select **Protocol w/No Co-sign** and click **OK.**
