

# NURSING & MIDWIFERY TOP 10

## Enteral Nutrition

EMR Phase 2.1 will see the introduction of  
Enteral Nutrition Ordering and Documentation in the EMR

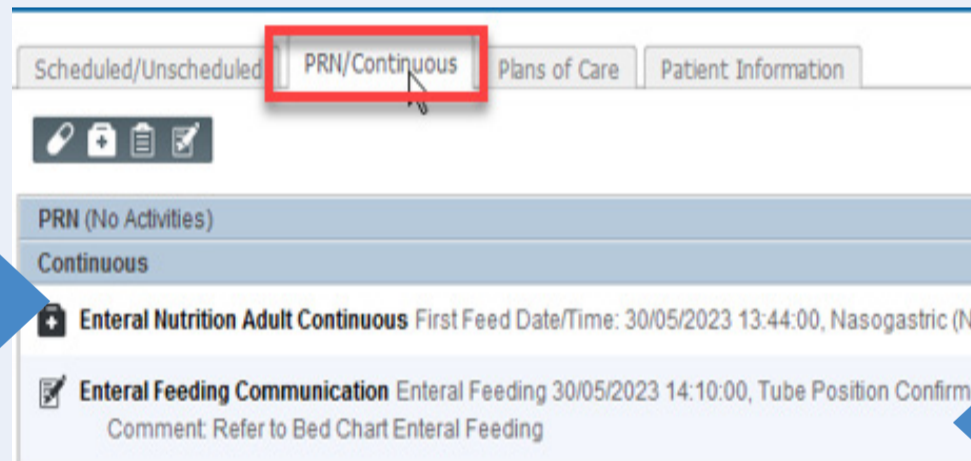

Enteral Feeding Communication Order

Enteral Feeding Regimen Order

The Medical Officer selects from these status options:

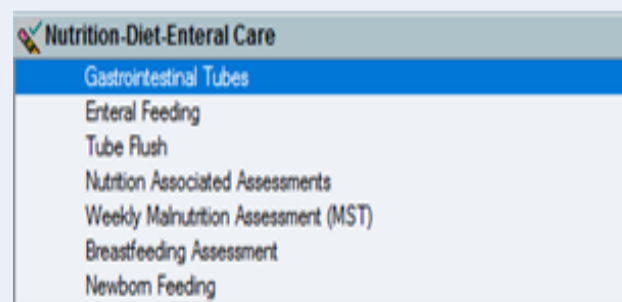

- **Tube not in position**  
- Withhold feeds
- **Tube position confirmed**  
- Ready for use
- **Tube position confirmed**  
- Withhold feeds

They will then document in the progress notes

The Dietitian orders the Enteral Regimen

Documentation of Enteral Nutrition is completed in Interactive View (iView) via the  
**Nutrition-Diet-Enteral Care** band

If the Enteral Feed are being commenced out of hours before a regimen is provided, the **Enteral Nutrition-out of hours Gastric Feeding** regimen must be ordered and the regimen followed as per policy
