Quick Reference Guide

This Quick Reference Guide will explain how to:

Set up your My experience to display Paediatric or Student View.

Definition

My Experience - is a function that enables the clinician to change role within the EMR, and thus the default views attached.

1. Navigate to **My Experience** from the tool bar 

The screenshot shows the MyExperience interface. At the top, there is a dark blue header with the text "MyExperience" on the left, and "Full screen", "Print", and "0 minutes ago" on the right. Below the header is a toolbar with icons for home, search, and zoom, along with a "100%" zoom level indicator. The main content area is divided into two columns. The left column is titled "My Available Positions" and contains two radio button options: "Medical Officer" (which is selected) and "Medical Officer - Student". The right column is titled "My MPages Selection" and contains the text "For Tab: Medical Officer View" followed by two radio button options: "Doctor View" and "Paediatric View".

2. Select, for example, Paediatric view from the MPage selection box

3. Click  in the bottom right-hand corner of the page

Handy Hint – When looking after paediatric patients you must change your view to paediatrics to ensure you are accessing the correct documentation and templates.
