Digital Health
Quick Reference Guide

This Quick Reference Guide will explain how to:

- Complete documentation for a Trial of Void (TOV) within the Women’s Health Bladder Care section of Interactive View
 - For Gynaecology inpatients post IDC removal, or requiring TOV
 - For Gynaecology outpatients in the TOV clinic

Important:

- When completing the TOV assessment in the outpatient TOV clinic, the nurse must also create an outpatient visit note summarising the encounter at the completion of the TOV

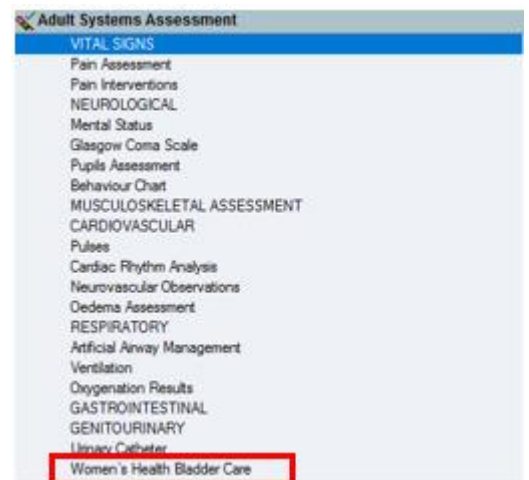

Documenting the TOV Assessment & Results (Inpatient & Outpatient)

Accessing the Women’s Health Bladder Care section of Interactive View

1. Navigate to **Interactive View and Fluid Balance** from the TOC
 - Open the **Adult Systems Assessment** band

Interactive View and Fluid Balance

2. Select the **Women’s Health Bladder Care** Section

3. Starting from **Indication for Formal TOV** complete each field as required
 - Click the green tick to sign results

- ▾ Women’s Health Bladder Care
 - Intrapartum Bladder Management Plan
 - Intrapartum Bladder Complications
 - Postnatal First Void Screen
 - ◊ IDC Present
 - Time of First Void
 - First Void Volume
 - Sensation to Void
 - Feels Empty After Void
 - Urinary Incontinence
