

# ICU – Order ICU Resuscitation Procedure Order Set

**Digital Health**  
CONNECTING BEST CARE

Digital Health  
Quick Reference Guide

## This Quick Reference Guide will explain how to:

Place orders retrospectively following a resuscitation or procedure as directed by ICU Medical Officers via the ICU Resuscitation/Procedure Order Set.

**Important – Most bolus medications ordered (vasoactive agents, sedatives and neuromuscular blockers) within this order set will expire 2 hours after the order set is placed.**

- This is to give time for the nurses to retrospectively sign off any orders that were given during the resuscitation/procedure.
- Continuous infusions which are ordered will not expire after 2 hours.

## Place ICU Resuscitation/Procedure Order Set

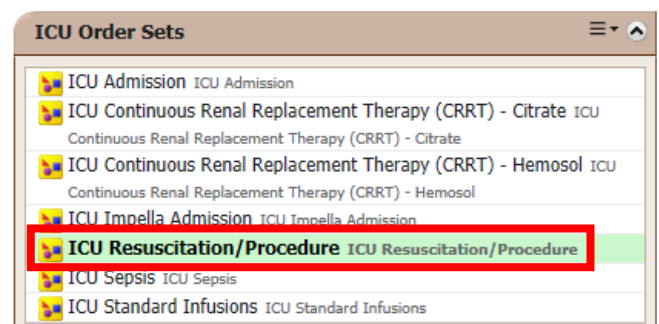

1. Click on **Medical Officer View** from the Table of Contents.

[Medical Officer View](#)

2. Navigate to the **ICU Quick Orders** mPage/tab.

[ICU Quick Orders](#)

3. Navigate to the ICU Order Sets component and click **ICU Resuscitation/Procedure**.

4. The **shopping cart icon** on the top right will light up and display a 1. Click the icon.

5. Click **Modify Details**.

[Modify Details](#)

- The orders window will display. Scroll through the list and tick all orders that were given during the resuscitation/procedure, then click on **Orders for Signature**.
