Quick Reference Guide

This Quick Reference Guide will explain how to:

Create a Phlebotomist Coronary Care Unit (CCU) Collection Round List.

1. Click on  **Patient List** in the navigational tool bar

2. Create the FH and SH CCU patient list. This only needs to be completed once and will remain on the user login

Click on the  icon which opens the **Modify Patient Lists** window.

Select **new** on the bottom right side.

3. The **Patient List Type** window will appear.
Select **Location** and **Next**

4. **Filters**

a. **Location**

- i. Expand the Locations folder on the right side by clicking on the  icon
- ii. Expand the campus location; ie. Footscray or Sunshine Hospital
- iii. Tick the empty box for Coronary Care Unit

b. **Encounter Types:** Inpatient

c. **Discharge Criteria:** Only display patients that have not been discharged

5. Click on **Finish**

6. Select the list in 'Available Lists' and click on the blue arrow in the centre to transfer the list to 'Active Lists'.

Click **OK**

7. Click on the **Clinical Unit** heading to group the Cardiology patients together.

Easily navigate back to **Collection Runs** in the navigational tool bar.
