

# Tracking Board – Updating Patient Status

## This Quick Reference Guide will explain how to:

Effectively use the Tracking Boards in the Cerner Millennium system

### Definitions:

**Tracking Board** – Enables staff to see all of the patients in every area of care and understand whose providing care, what care is required and what stage of their visit a patient is at

## Updating Patient Status

1. As a care provider, you can update the patients status directly from the tracking board
2. Click on patients entry and select the appropriate option to reflect their current stage of care
