Quick Reference Guide

This Quick Reference Guide will explain how to:

Locate, add, and view ED Chronological View from the clinical workflow Mpage. ED Chronological View is an overview of the patient journey in ED. It is divided into colour coded sections including: **Orders, Tracking Event** (ie Bed Requests, MH/AOD review), **Clinical Documentation**, and **Vital Signs**

Adding Chronological View from Mpages

1. Select + sign from the top of any Mpage in the patient chart (for example ED Nursing/Medical Workflow).

2. Navigate to 'ED Chronological View' from selection list.

3. The ED Chronological View will now be available to view as an overview page. Selecting X sign will remove ED Chronological View.
