

This Quick Reference Guide will explain how to:

- View a patients results in BOSSnet

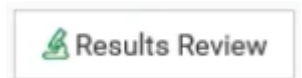

Viewing results from a patient search

1. When searching for a patients chart, you may see coloured icons under the result status column.
 - The yellow star icon indicates a new result.
 - The blue eye icon indicates an unseen result.
2. Click on an icon to view the associated results. A new window will open. A list of results will show on the left, and selected results will display on the right.

Viewing results from the PRECIS window / patients chart.

1. Once you have the patients PRECIS window open, select Results Review from the top of the window.
2. Alternatively, from a patients chart select the same results review button from the top right corner.
3. A new window will open. A list of results will show on the left, and selected results will display on the right.

The screenshot shows the BOSSnet interface with a Gastroscopy Report open. The left sidebar contains a 'Patient Results' section with a search bar and a 'Filters' section with various medical specialties. The main content area displays the report details, including patient information, procedure date, and findings.
