Quick Reference Guide

This Quick Reference Guide will explain how to:

Document a Food Description Chart (Food Chart) in EMR

Definitions:

Food Chart – Is a quantitative record of all food and drinks consumed. It can provide essential information that serves as the foundation for a nutritional assessment and helps to determine treatment plans.

Powerforms – Are electronic documents in EMR that are stored in an AdHoc folder. It provides templates for targeted data entry to fulfill the requirements of specific clinical tasks. Completed Powerforms can be viewed in Form Browser, Documentation and Continuous Notes.

Food Chart Documentation through Task

1. Go to Scheduled/Unscheduled Tab in CareCompass to view Food Chart task. Select Document.

2. Food Chart Powerform opens. Complete the appropriate fields.
3. Sign the document by clicking the Green Check icon.

	0%	25%	50%	75%	100%	Comment
