

# Documentation – Powerforms Allied Health Inpatient Activity Data

**Digital Health**  
CONNECTING BEST CARE

Digital Health  
Quick Reference Guide

## This Quick Reference Guide will explain how to:

Record activity data and statistics in the Allied Health Inpatient Powerform.

Allied Health Professionals must record inpatient activity data for all patient-attributable face to face clinical care, documentation, and indirect clinical support.

Allied Health professionals can record activity data and statistics using:

- Discipline-specific Assessment, Progress or Discharge Powerforms
- Discipline-specific Inpatient Activity Data Powerform

## Important:

- The Inpatient Activity Data Powerform should only be used if clinical documentation in a Powerform is not required and/or if the Powerform does not have the intervention or session information chapter.
- The Inpatient Activity Data Powerform does not render to the patient file.

## . How to capture activity data and statistics in a Powerform:

1. Launch Powerchart and open the patient's chart.
2. Click on 'Adhoc' from the toolbar.
3. Select the appropriate Powerform.
4. Ensure the correct date/time of Powerform entry is entered.
  - If retrospectively completing the Powerform, ensure to note this in the 'Session information' under 'Retrospective Entry' and provide a comment.
5. Enter clinical documentation into the Powerform.
6. Ensure you complete the mandatory **Interventions** and **Session Information** chapters of the Powerform.

## Important:

- All mandatory fields (yellow) must be completed in order to sign this Powerform.

7. Once the Powerform is complete, select  to sign the Powerform.
